HUBBARD CONFIDENT OF PEARY

Bar Harbor, Me., Sept. 29.—Intimating that he sides with Peary, but making no definite statement, Hubbard said today the statement of Peary will not be made public until the officers of the Peary Arctic club pass on them. Whitney Tells Story.

St. Johns, N. F., Sept. 29.—When Whitney was questioned regarding statements made to him by Dr. Cook in Greenland, said Cook arrived at Annotok in April of this year, and declared that he had reached the north pole a year before. He pledged Whitney not to tell Commander Peary, who was to be informed only that Cook had gone further north than Peary's previous record, 87 degrees 6 minutes. Dr. Cook told Whitney that he had accomplished all he expected.

CANDIDATES FOR COUNTY JUDGE TO DEBATE ON STUMP

Stump speeches will ring through out the county as County Attorney Alben W. Barkley, Democratic nominee for county judge, has accepted the invitation of Attorney Thomas N. Hazell, Republican nominee for county judge, and they will stump the county. Last night a dark lantern meeting was held by the Democrats at their headquarters, and it was decided that something urgent was necessary.

Owing to the fact that circuit court is in session, Mr. Hazell arranged all but three of his dates at night in order that County Attorney Barkley might attend and participate in the joint debate, and defend the present administration, of which he is part.

The formal challenge of Mr. Hazell was: "Hon. A. W. Barkley, Democratic nominee for county judge; Dear Sir—On last Saturday, September 25, I announced in the Paducah Evening Sun a list of speaking appointments, beginning at Reidland school house on Saturday evening October 2, at 7:30 o'clock, and I take this method of inviting you to be present at these several appointments to discuss the issues of the present county campaign; an equal division of time will be allotted to you should you desire to attend. Please answer. Respectfully, "THOMAS N. HAZELL."

Wilbur Wright Circles Around Statue of Liberty and Passes by Battery Park Before Big Crowd

Ideal Weather Taken Advantage of by Both Wright and Curtiss—Whistles on River Make Terrific Din.

New York, Sept. 29.—Wilbur Wright circled the Statue of Liberty today. Starting from Governor's Island at nine this morning, he was aloft before the spectators realized it. He made complete circles, at a height of fifty to sixty feet, then headed eastward across the island and over the mouth of East river. At a terrific speed he turned north-west toward Battery park, where there were thousands of spectators. As soon as he was seen coming across the bay, whistles on the steam craft were tied down, making a perfect bedlam of noise. He swung across in front of Battery in full review, and then swooped towards the statue. He made a complete circle of it and then flew back to Governor's island, landing at the exact spot he left. The spectators were almost hysterical. The entire flight was only seven minutes, making it at a terrific speed.

New York, Sept. 29.—Weather conditions are ideal. Curtiss made a twelve minute flight early today long before the first train load of spectators arrived at Governor's island. He did not go out over the water, only above the island turning up in his flight. Wright says his test flight will be later. C. E. Willard, who has been flying lately in Canada, showed Curtiss his pontoons on the machine are impracticable. Curtiss unshipped them, and is now putting on new ones, according to Willard's directions.

Because Tomlinson's machine was smaller, Baldwin gave him a handicap of thirteen minutes and even when he did start he cut dikes, circling Grant's tomb and other figures. Then he sped up the river at a terrific speed, and soon was out of sight. Tomlinson's balloon was built by Baldwin and sold to Tomlinson a half hour before the race. After Baldwin's machine fell in the Hudson Tomlinson's craft was blown out of the course by the wind, but it pluckily battled to return to the course and win the \$10,000 prize.

American Navy Champion.

William Sherman, of the battleship Louisiana, defeated "Red" Coleman, middleweight champion of the British fleet, in three rounds last night as a feature event of the entertainment given by the Louisiana jacksies to visiting sailors. Uniformed sailors of England, Germany and France crowded the decks of the Louisiana as guests. Boxing, wrestling and vaudeville numbers comprised the program. Germans particularly enjoyed the boxing.

Dirigible Race.

With a \$10,000 prize as an inducement, Captain Thomas Scott, Baldwin in a giant dirigible like the one he gave the government, and George L. Tomlinson in a machine slightly smaller, but of the same general type, started at 11:25 today for Albany, following the channel of the Hudson. This will be the first point to point airship race in this country. Both, it is said, expected to make the trip in record time. The finish will be Ten Eyck park, Albany. Both expected to land there before night. They are being followed by judges in automobiles and a corps of men on motorcycles.

Baldwin's airship fell in the Hudson north of Spuyten Duyvil, putting him out of the race. Tom Linson's machine is still in the air, making great progress.

Casualties of a Day in Paducah.

He has a contract for hauling gravel. It was necessary to dig him out. Dr. B. A. Washburn attended him at his home.

Fire completely destroyed the house and household goods of Albert Gregory, of Twenty-eighth and Adams streets, this morning at 2:30 o'clock. Before neighbors discovered the blaze the roof was crashing in, and before the fire department could make the long run the entire house was destroyed, with a loss of

Several running horses arrived in Paducah this morning and were taken to the fair grounds. The stables have all been reserved for other runners and harness horses.

IN DREAM HE SAW FRIEND MURDERED AND IT WAS SO

Description of Vision Tallies as to Time, Place and Manner of Crime.

Police of Stockholm Will Use Evidence.

A PICTURE OF THE SUSPECT

Stockholm, Sweden, Sept. 29.—Identification of a murderer by a man, who never saw the prisoner, but claims he saw the murder committed in a dream, will be attempted by the local police as soon as General Bjoerlin, who is critically ill, is strong enough to look at the photographs of the man who assassinated his friend, General Beckman, the night of June 26.

At the very hour the crime was committed, many miles away, Bjoerlin raving in a delirium, saw a feverish vision of his old friend shot down in a Stockholm street. Suddenly he shouted "Drop that, you scoundrel!"

When his nurse sought to calm him, he was angry and tried to spring out. "Can't you see the smoke?" he cried. "Can't you see the smoke? They have murdered General Beckman. Don't you see the blood on the street?"

He raved all night, but at daylight was calm and slept an hour.

When he awoke, he said, "You will find General Beckman has been murdered. I am sure of it."

He described the crime in detail. At 9 o'clock papers arrived, telling of the assassination. The nurse says the published report and dream tally all the essentials. It is now desired to see whether General Bjoerlin will identify the pictures of the suspect arrested.

METHODISTS TO MEET THIS YEAR AT GREENFIELD

Preparations are being made for the annual Memphis Conference of the Methodist church at Greenfield, Tenn., November 10. This includes eight separate districts, Paducah being among them. Dr. Blackard has given faithful service during his term and has won the hearts of many.

His successor will be named at the conference. In addition to the official delegation from this district many laymen will attend from this district as much interest is manifested in the conference.

While laying a line of hose Fireman Tilford Edwards, driver of the No. 2 hose wagon, was thrown from his seat and bruised about the body. All the firemen were off the wagon, while he was driving the wagon as the hose rolled off, when the wagon struck a gulley. Edwards was thrown clear of the wheels, and escaped serious injury. The horses became frightened but were caught before any serious damage was done. In the vicinity of the fire the streets are unimproved, and it was impossible to see the ditch before it was struck.

Jonas Smith Gets Life Sentence This Time For Murder of Father— Smedley Case Passed For Present

Louis Futrell on Trial This Afternoon For Murder of Horace A. Osburn Boarding House Keeper.

Jonas Smith, colored, once sentenced to hang for the murder of his father, Amos Smith, was given a life sentence by a jury in the circuit court today.

Evidence and arguments in the trial of Jonas Smith, colored, murderer of his father, were finished this morning and the jury received the case at 10:40 o'clock. The evidence was the same as introduced at the former trial. Smith and John Polk colored, became engaged in a difficulty, and when Amos Smith interfered Jonas Smith became angry. While wrestling with his son for the possession of the weapon, it was discharged and the father was killed. Witnesses swore that Smith used abusive language and said he would kill his father, because he would not let him kill the other negro. Judge James Campbell represented Smith while Commonwealth's Attorney John G. Lovett and County Attorney Alben Barkley represented the prosecution. Both sides worked hard and the arguments on both sides were strong.

The case of Hiram Smedley was temporarily passed, pending an inquest into his sanity, and the court is proceeding with the trial of Louis Futrell for the murder of Horace Osburn.

Pale from his confinement in the county jail, Hiram Smedley, former county clerk, under indictment, appeared in the circuit court this morning when his trial was called. Judge Reed called the case and the commonwealth announced ready, but attorneys for the defense prepared an affidavit to the effect that he was of unsound mind and incapable of making a defense at this term of court. Judge Reed then called the Futrell case.

It was Smedley's first appearance in court since the indictments and he appeared pale, and his face was much thinner than formerly. Otherwise he appeared in good health. He had words of greeting for his friends, but spent most of his time out of the gaze of the curiosity seekers.

TAFT CHEWS BEAR AND TALKS ABOUT AMERICAN HUMOR

Says it Meat More Toothsome Than Crocodile and We Are Happy People.

His Big Address on Conservation.

MADE LAST NIGHT AT SPOKANE

North Yakima, Wash., Sept. 29.—President Taft ate bear meat at a dinner given at Hayden Lake by the Spokane business men last night. He said today it was fine, much better than crocodile, which I ate in the Philippines and not so sickening. In his address, he said the American sense of humor is the greatest asset of our people.

On Conservation.

Spokane, Sept. 29.—President Taft delivered here the anticipated speech on the conservation of natural resources and outlined the administration's policy on the subject. The president took the stand that while the administration followed the policies of Roosevelt such pledge does not oblige him to carry out those policies without congressional authorization. He added that he would take every step and exert every influence upon congress to enact legislation which will best subserve these purposes and requirements of the situation. It was here in Spokane that the Ballinger-Pinchot controversy arose. President Taft gave credit to both Pinchot and Ballinger, and said while Pinchot was denounced at first, it is now realized that such reforms should have begun ten years ago.

Taft, in his speech on the conservation of natural resources, declared that the pledge made by his administration to follow out the Roosevelt conservation policies, required that the president take every step and every legitimate influence upon congress toward securing legislation which will best subserve that purpose. The president will recommend to congress the authorization of \$10,000,000 in bonds to complete the irrigation projects whereon work has ceased on account of lack of money.

He asserted that Ballinger is in accord with him as to the necessity of promoting the conservation of resources, also praised Pinchot, referring to his "wonderful work for the conservation of forests, supported by Roosevelt." As to water power sites the president declared that congress must authorize the government to allot these to private interests for development, the government retaining general control and supervision. He said he would urge upon congress the necessity for the classification of

New York, Sept. 29.—Wild Bill Donovan was right, and the Yanks never had a chance with the big Tiger, who shut them out, 5 to 0 and held them to five hits, well distributed. Stallings sent in Southpaw Wilson and, while the Tigers did not get many hits of him, they made every one count. In addition, his generosity with passes proved fatal. The Yanks went to pieces at critical times while the Tigers gave Donovan good support, especially after they looked at the score board and saw what Philadelphia was doing to Cleveland.

The Tigers started things going in the third inning, when Stange walked. Donovan bunted and Davy Jones singled, filling the bags. Bush got a pass and Stange walked in. Donovan scored on Cobb's sacrifice fly. Moriarty fanned, after Crawford got to first on Chase's fumble. Austin made a swell catch of Dehanty's infield hoist, that Blair or Chase should have taken.

In the fifth Davy Jones got to second on a scratch hit and a wild throw by Wilson to first. Knight struck Bush's fast one over Chase's head. Jones scoring and Bush taking second. Bush scored from second on Cobb's sacrifice, Blair to Chase. The next two were easy outs.

With one down in the fifth, Tom Jones singled and stole second. Stange sacrificed sending Jones to third. Donovan walked. Davy Jones scored Tommy with a single, ending the scoring.

Looks Like Tigers.

While it has lost ground on its present eastern trip, the Detroit club stands an excellent chance this season of winning its third consecutive pennant, and thereby establishing a record for the American League, no team of which has yet won the flag more than twice in succession. Detroit's advantage over Philadelphia now is two and a half games, or 16 points.

Detroit has six games scheduled—four with Boston and two with Chicago—and if it should win four of these Philadelphia would have to win all of its seven remaining contests to tie for the championship. Should Detroit win four out of six and Philadelphia win seven straight, each team would have 99 victories and 54 defeats and an average of .657. Then according to the American League constitution three games would have to be played to decide the tie.

Philadelphia will play two games with Chicago tomorrow and Detroit will play a double header in Boston.

IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Troubles—A Paducah Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame back or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Paducah people testify to permanent cures.

Mrs. Henry Seamon, 1027 South Third street, Paducah, Ky., says: "I suffered considerably for about a year from a weak and aching back together with pains across my kidneys. It was difficult for me to bend over, and lifting was out of the question. I knew that all my trouble came from inactive kidneys, and accordingly, when Doan's Kidney Pills were brought to my notice, I decided to give them a trial. The first few doses relieved me and as I continued taking the remedy, the pains in my back gradually disappeared. I was soon restored to good health. Doan's Kidney Pills have my heartiest recommendation."

burg would still lead by half a game. There was a great demonstration on Forbes' field when the Philadelphia-Chicago score was posted on the bulletin board. The crowd made a rush for the bench of the local players, but the local game being over they had retired to their dressing rooms.

Before the game, Manager Fred Clarke, of the Pittsburgh team, was presented with a purse of gold amounting to a little over \$600, the gift of local baseball enthusiasts. Mayor Wm. A. Magee, of this city made the presentation speech.

Pittsburgh won the National League pennant in 1901, 1902 and 1903, this being the fourth time, and giving Manager Clark the distinction of being the only man in the National League today with such a record. Only three other managers of major league teams ever had a better record, they being Messrs. Anson, Seale and Hanlon, whose teams won pennants five times.

Five players of the Pittsburgh team at present hold the record of being the only ones ever members of a club that won the pennant four times. They are Manager Clark, Shortstop Wagner, Centerfielder Leach and Pitchers Weaver and Philpie.

Pittsburgh is the best hitting team in either major league, having 1,282 hits to their credit, including 204 doubles, 88 triples and 24 home runs and is second in fielding, Chicago being first.

Four-Time Winners.

The Pittsburgh team is remarkable in the fact that the second division of its line-up is the hardest hitting aggregation of any second division in any major league club, these four men, Miller, Abstein, Wilson and Gibson, having batted in more runs than the second division of any other team.

O'Connor a Mascot.

An interesting feature of Pittsburgh's winning the pennant is the fact that O'Connor was catching for the local team when the pennant was clinched, and the only other game he caught this year was on May 5, when his three hits helped Pittsburgh defeat Chicago, thus placing Pittsburgh in the lead in the race.

Catcher George Gibson has caught 130 consecutive games, his claim to a world's record being disputed. Should he catch in four more games

Only Place to Train.

Hot Springs, Ark., Sept. 29.—The news that the Pittsburgh Pirates had clinched the baseball pennant in the National League was received here with the greatest enthusiasm. For ten years the Pirates have trained at a leased park in this city, being the first team to use this resort as a training ground. The fact of Pittsburgh having trained here has called attention of other ball magnates to the resort as a training ground, and now Boston Americans and Cincinnati Nationals have leased parks here with the Chicago Nationals, Brooklyn Nationals, St. Louis Nationals and New York Nationals negotiating for sites.

Pittsburgh, Sept. 29.—The Pittsburgh baseball club clinched the 1909 pennant of the National League. A Song of Courage.

Oh, sing for the wind that blows
From the salt and storm of the sea!
And sing for the gull that goes
Wide-winged and fearlessly—
Bold, bold is the life he knows;
A guest of the gale is he.

Oh, sing for the vale of Peace
Where zephyrs are slow and soft,
Where ragings and strivings cease
And the skylark soars aloft!
Oh, sing for the hearts that leap
And rise to the stress of life,
And sing for the eyes too brave to weep
And the souls too great for strife!

Jefferson Street From Eleventh to Seventeenth Closed.

The board of public works begins work of closing Jefferson street to-night, and one side will be treated at a time. We therefore request the public to kindly not drive on the closed portion of the street or attempt to cross it anywhere between Eleventh street and Fountain avenue, as it materially affects the work. It will only require three days to complete the work when the street will be opened.

Cloister's Long Service.

All honor to Mr. Fred Moore (who has sung in one choir at Seaford for seventy-four years) for his unstinted and loyal service. Mr. Moore, however, is not the oldest chorister still in active service in the kingdom. This honor, I believe, is due Mr. George Arnold, who has been a member of Holy Trinity church, Bosham Sussex, for more than eighty years. Mr. Arnold joined this choir in 1829 and still sings in the chancel behind his grandson, who is also a member of the choir.

Even this, I do not think, constitutes the record, for on looking through an old list in my possession I find the name of Mr. John Siddons who in the year 1814 joined the parish church at Snaresbrook and was still in active service there as a chorister in 1896, when he had just celebrated his ninetyeth birthday. Eighty-two years is certainly a record hard to beat for length of service in one choir.—London Mail.

Anty Drudge on Literature.

Mrs. Housewife—"I'd like to read more books, but I can't seem to find time. Monday I have to wash all day and—"

Anty Drudge—"Stop right there, my dear! If you will begin Monday morning by reading the directions on the back of a Fels-Naptha soap wrapper and follow them faithfully, you'll have more time for other kinds of reading that day and feel more like it, too."

Fels-Naptha soap is the best and easiest way of washing. If Fels-Naptha didn't do what we say it will, no woman would buy a second cake. Yet more than a million women use Fels-Naptha every wash-day. And the number is increasing as fast as its value becomes known.

If you haven't used Fels-Naptha, try it, according to directions, and on the result we'll stake our chance of making you a regular user. For your white things, soap, roll and soak for thirty minutes in cold or lukewarm water—no boiling or hot water. Then rub lightly, rinse and hang out to dry. That's all.

Full directions for all uses of Fels-Naptha on the red and green wrapper.

If Fels-Naptha is kept out of the water while doing the kitchen work, it is less expensive to use than the ordinary kinds of soap.

Falling Hair and Itching Scalp are
Caused by Microbes.

There is no doubt about it. Doc-
tor Sabouraud proved it when he in-
fected a guinea pig with dandruff
germs and all its hair disappeared
in a short time. The entire medi-
cal world has accepted Dr. Sabou-
raud's discovery as final. Ask any

Paris leads the world in knowl-
edge of diseases of the hair and
remedies for the same.

And Parisian Sage which can now
be obtained at leading druggists all

News of Theatres

Within a short while beautiful
Florence Gear, in the merry musical
comedy "Fluffy Ruffles," will hold
forth at the Kentucky theater. The
part of "Fluffy Ruffles" is said to fit
Miss Gear even better than did
"Marrying Mary," and her success in
that role was the talk of last season.
A hint of the quality of the company
that is supporting Miss Gear is con-
veyed by the statement that every
part is taken by a specially chosen
artist. As has always been her cus-
tom, Miss Gear is displaying some
stunning gowns and hats.

"The Golden Girl."

Lort H. Singer, who has produced
the many successes that have made
the LaSalle and Princess theaters
famous, has exceeded all former ex-
penditures in his production of "The
Golden Girl," which comes to the
Kentucky theater during November
as this new musical comedy is said
to have cost \$50,000 before the cur-
tain went up on the first perfor-
mance. His good judgment, however,
was shown by the phenomenal run
of this play in Chicago, where it re-
ceived its premiere, as well as its
remarkable success on the road.

Another large audience witnessed
"A Daughter of Judea" last night
which in the hands of the Gertrude
Ewing company, was a capable and
pleasing rendition, Miss Ewing show-
ing to special advantage as "Leah,"
and demonstrated her superior abil-
ity as to an emotional actress. Miss
Ewing's support was adequate in ev-
ery way, especially so was Mr.
Brackett as "Rudolph." The vaude-
ville numbers again scored hits and
is a feature with the company. To-
night they present the sensational

comedy drama, "Slaves of the Orient"
with special scenery, costuming and
new vaudeville. "Camille" and the
directorial down will be Thursday
night's offering.

"Way Down East."

"Way Down East," that rural clas-
sic which comes to the Kentucky
theater soon for one night's engage-
ment, never fails to fill the theater.
If the story of "Way Down East" is
conventional, it is so directly and
simply told, and its pathos and hu-
mor are so natural and unstrained
that one forgets that there is noth-
ing new in the fact that a stubborn
old man's son is wilful enough to love
one girl, when his father wants him
to love another. Miss Blanche Shir-
ley plays the part of Anna Moore
which receives the best possible in-
terpretation at her hands. That stern
old character, Squire Bartlett, who
believes in "living according to the
scriptures," is in the hands of John
R. Armstrong, who has played the
part for several seasons, while Beth
Summerville will give her sweet and
wholesome portrayal of a gentle-m-
nured New England woman. Others
in the company are: Dorwin, Karr,
Bertha Mann, Daniel Roach, Jane
Millard, Charles H. White, Warren
Cook and J. A. Mcurdy, and will be
assisted by the ever present village
choir.

MISS HAWKINS PUTS END TO
HER LIFE.

Daughter of Elkton Preacher Com-
mits Suicide While on Visit
in Fayette County.

Elkton, Ky., Sept. 29.—Sunday,
Miss Lizie Hawkins, daughter of
Elder and Mrs. J. T. Hawkins, took
her own life by hanging. She was
on a visit to her married sister at
Richmond, Ky., and hanged herself
while the family were at breakfast.
Last May she attempted suicide by
shooting herself with a pistol, the
ball entering her left breast, and
passing through her body one inch
above the heart. From the effects
of this wound she had entirely re-
covered, and with her mother went
to Lexington to attend the state
meeting of the Christian church and
stopped at Richmond to visit her
sister.

The deceased was 34 years of age
and a lovely young lady. Elder J.
T. Hawkins is the pastor of the
Christian church in this city. The
remains reached this city last night
at nine o'clock and the burial took
place this morning in Glenwood
cemetery.

TELEPHONE GIRLS' BRAVERY.

Saves an Ohio Town From Destruc-
tion by the Flames.

Painesville, O., Sept. 29.—The
bravery of two telephone girls, Hazel
Christian and Alice Warren, sleeping
in the telephone exchange at Perry
a village near here, saved that town
from total destruction by fire early
today.

Fire broke out in a store beneath
the exchange. The girls were alone
but stuck to their posts, and tele-
phoned the sleeping citizens. They
had trouble in getting answers to
their calls, and then they called to
the Painesville and Madison fire de-
partment for help.

While talking with the Painesville
fire chief the flames burned the wires
and the girls in their night clothes
stumbled down the stairs through
the smoke to the street.

Two stores, a livery stable and re-
sidence were burned before aid from
other towns arrived. Loss \$25,000.

many people.

Democratic voters of the Seventh
magisterial district, who otherwise
might feel that they had wasted their
time going to the primary when the
man, who received the fewest votes
was declared nominated, may satisfy
themselves with the thought that
they set the stage for a very pretty
bit of political play-act.

In the Third judicial district that

John Hanberry were opposed by

Hickman will do the honors for
Kentucky October 26, when president
Taft and his family go down the Mis-
sissippi. Governor Willson will
there to welcome the president in be-
half of the state. Western Kentucky
should back up Hickman in her en-

that this is the big end of Kentucky
Paducah should be well represented,
not only in numbers, but, if possible
in a manner to distinguish her rep-
resentation from the general crowd
gathered there for the occasion. Cer-
tainly, we should do everything to
impress the congressional delegation
and the president with the possi-
bilities of the Mississippi valley.

YOU GET WHAT YOU ASK FOR
IN NEW YORK.

It is always pleasing when a man
can give a reason for the faith that's
in him, and a fairly consistent ex-
hibition of that faith at every criti-
cal turn. Ray Stannard Baker, a writer
of special articles for magazines, re-
cently has stirred Christendom with

an alleged exposure of the Godless-
ness of New York.

Many ministers have exerted them-
selves explaining the facts Mr. Baker
sets forth, and others had already
been exerting themselves to the best
of their several abilities to overcome
those conditions; but now comes the
Rev. A. Edwin Kelgwin, of the West
End Presbyterian church, with no
apology or explanation, but a red-hot
rebuke that should burn the ears of
the faithless.

He says:
"Show me a minister with a mes-
sage and I will show you a church
of which every pew is occupied."

"Show me a New York preacher
who does not apologize for the gospel
and I will show you a congregation
that needs a new and larger church
home."

"Show me a congregation where
the members do for each other, not
where the masses have all things
done for them by the few, and I will
show you a church spiritually alive."

"Show me a real New Yorker and
I will show you a man who is trying
to make both ends meet, give his
children an education and raise them
in the fear of the Lord."

"Show me a church of empty pews
and I will show you a district of New
York occupied by birds of passage—
tourists, buyers and pleasure seekers
men and women—drawn to New
York's great hotels from every cor-
ner of the two continents."

From all this we gather the infer-
ence that those visitors to the me-
tropolis, who tell what a horribly
wicked place New York is, look only
for the wicked places when they are
in the city.

COOK AND PEARY

(Continued from Page One.)

to, and more besides, and that he
was through with the northern
country.

Whitney did not communicate the
latter part of this statement to Com-
mander Peary. Dr. Cook complained
to Whitney of Peary's taking over
of his house and stores, but declar-
ed that he had suffered no unfair-
ness. Peary's steward, William
Pritchard, was present when these
statements were made. He also was
pledged to secrecy by Dr. Cook.
Murphy, Peary's boatswain, in
charge of the stores, was absent at
Etah on this day and did not hear
Dr. Cook's communications.

Use Cook's Stores.
There were two houses on the
Greenland shore, one at Annotok,
holding Cook's stores, and another
at Etah, holding Peary's. Whitney,
Murphy and Pritchard sometimes oc-
cupied one and sometimes the other
of these houses. Murphy was in
charge of both houses. He is not
able to read or write. He had writ-
ten instructions from Peary, which
Whitney, at Peary's request, read
over to him from time to time.

These instructions were very
stringent, directing Murphy to use
Cook's stores first and Peary's after-
wards. Murphy was told in them
that he was to give Dr. Cook every
help if he came along in a needy
condition, and furthermore the in-
structions implied that Murphy was
to organize an expedition to search
for Dr. Cook, but according to Mr.
Whitney, this part of the instruc-
tions was worked very ambiguously.

Mr. Whitney said that Cook had a
copy of these instructions, and
would doubtless make it public.
Murphy treated Cook very civilly
and Cook suffered no discourtesy.

When Cook and his Eskimos ar-
rived at the house they had no
sledges. Being too tired to drag it
over the rough ice, they had left it
twenty miles from Etah. The fol-
lowing day some other Eskimos went
out, recovered the sledge and
brought it in. On it were Dr. Cook's
instruments, clothes and food.

Intimidate Cook's Eskimos.
After spending two days at Annotok,
where Cook first met Whitney,
Cook started for Etah. Whitney ac-
companied him. Cook remained for
three days at Etah, organizing for
his trip south to Upernivik.

The doctor planned originally to
take two Eskimos and two sledges,
but one Eskimo fell sick and this
made it necessary for him to cut
down the luggage he could take with
him south.

He consequently asked Whitney to
take charge of the instruments with
which he had made his observations
at the pole. There were three
cases, one containing a sextant, an-
other an artificial horizon, and the
third an instrument which Mr. Whit-
ney did not recall.

Cook left no written records with
Whitney that Whitney is aware of.
Whitney said that last month
after Peary's arrival on the Roose-
velt, Cook's Eskimos came to him
(Whitney) and asked what Peary's
men were trying to get them to say.
Peary's men had shown the Eskimos
papers and maps, but the Eskimos
declared they did not understand
these papers.

Whitney said he used two of
Cook's Eskimos as guides, but that
he knows nothing of their value in
a dash across the Polar sea.

Peary's Refusal.
The day the Roosevelt was leaving
Etah for home, Whitney informed
Peary that Cook had entrusted to
him certain belongings to bring on
the vessel that was coming up for
Whitney, but as this ship had not ar-
rived, Whitney was at a loss what
to do with this property.

Peary declined to permit Dr.
Cook's belongings to be brought
aboard the Roosevelt and he put
Whitney on his honor not to include
anything belonging to Dr. Cook in
his own luggage.

Whitney thereupon went ashore
from the Roosevelt, separated Dr.
Cook's property from his own bag-
gage, and, with the aid of Capt.

Bartlett, commander of the Roose-
velt, whom he had asked to help
him, repacked Cook's property in
boxes. After this had been done,
Whitney and Bartlett cached all
Cook's property in a cave in the
rocks. They built up the cave se-
curely with stones and turf and left
it and the property in charge of one
of Dr. Cook's Eskimos. There was
nowhere else to put Dr. Cook's
property, as Peary's house had been
dismantled and his stores given to
his Eskimos, and all the material
and stores in Cook's house at An-
notok had been destroyed.

Old Trick of Peary.
It may be remarked in passing,
Whitney went on, that ten years ago
Peary did with the explorer Sver-
drup, who was cruising in Smith
Sound, what he has done with Cook;
he refused to bring back Sverdrup's
letters or records.

Continuing his recital, Mr. Whit-
ney said that when the Roosevelt
reached Etah she proceeded south,
and on meeting the Jeanie, Whitney
transferred to this vessel.

Asked why he did not return to
Etah and get Cook's property after
he had joined the Jeanie, Whitney
replied that he and Capt. Bartlett
debated that point at length. Bartlett
wanted him to go back, but he was
in this predicament: He had prom-
ised his chief Eskimo a Winchester
rifle, which was to have been
brought up by the Jeanie, but for
some reason or other this weapon
was not on board, and before Whit-
ney left Etah he had arranged the
matter with the Eskimo by giving
him an equivalent for the rifle.

He explained that he did not like
to go back to Etah and when asked
for the rifle have to admit that it
was

PROTEST RAISED

GENERAL GRANT SHOULD NOT
HAVE WORN UNIFORM.

When He Took Part in Temperance
Parade Last Week—Letter to
Secretary of War.

Chicago, Sept. 29.—A protest
against the appearance of General
Grant in his army uniform in the
temperance parade last Saturday was
made today in a letter sent the sec-
retary of war by R. W. Michael, mem-
ber of the executive board of the
United Societies for local self-govern-
ment.

The letter says:
"Public officers are servants of the
people and should not be allowed to
use the advantages of their office to
accomplish partisan ends. I don't
dispute the general's right to take
part in this movement as a private
citizen, but I believe he has no right
to head a parade in full uniform, or
participate as a federal officer."

"Will you kindly advise whether
the department has ruled on such
conduct and whether same can be
said to receive official sanction?"

Several letters have been sent to
the secretary of war from gentlemen
who defend Grant's appearance in the
parade. They say it was not a "pro-
hibition parade," but a "movement
for civic righteousness and enforce-
ment of law and order in Chicago."

merce commission the amount that

Going Down

Every Day

Although She Had a Good Physician,
Mrs. Beatty Was Going Down
Till She Took Cardui.

Lusk, Tex.—"I want to tell you
how much I have been benefited by
Cardui," writes Mrs. E. Beatty, of
Lusk, Tex. "I had female trouble,
pains in my back, a dizzy, dull head-
ache, palpitation of the heart, full-
ness at my stomach, and was so
weak I could only sit up a little
while at a time and began to have
fevers every day."

"I had one of our best physicians
treating me, but was going down
rapidly every day, so decided to try
Cardui. Before I had finished the first
bottle I felt much improved in
every way. I have taken 10 bottles
and am now up and able to do my
work."

"When you are weak, take Cardui,
for it will help to make you strong
as it has helped thousands of other
sick women."

Its ingredients are perfectly harm-
less, its action is gentle, and it will
not interfere with any other medi-
cine you may be taking.

NOTE—The Cardui Home treat-
ment for Women, consists of Cardui
(\$1), Theodor's Black-Draught
(25c), or Velve (50c), for the liver,
and Cardui Antiseptic (50c). These
remedies may be taken singly, by
themselves, if desired, or three to

BIG TIMBER FOR CHINESE TEMPLE

LOGS 105 FEET IN LENGTH BE-
ING TRANSPORTED.

Coolies to Carry Them Distance of
Six Miles to House of
Worship.

ONLY WAY OF TAKING THEM

Wanting the biggest timbers avail-
able in the world for the rebuilding
of a famous temple, the Chinese gov-
ernment has come to Oregon for
them. These timbers, or rather
trees, for they are great logs with
the bark still on, are now being load-
ed on board the steamer Emma S
Dollar at Linton, says the Portland
Oregonian.

The logs, 105 feet long and forty
feet in circumference at the butt, af-
ter reaching China must be towed
200 miles up the Grand canal and
then transported overland six miles
to the Temple Ling Yen, the most
famous house of worship in all the
Celestial empire.

The only possible way to get the
twenty-four timbers over the six
miles of land is for coolies to carry
them.

Robert Dollar, of San Francisco
head of the Dollar Steamship line
who is at Portland, tells an interest-
ing story concerning these timbers.
"When I told them of the ship,"
said Mr. Dollar, "that coolies were to
carry the timbers six miles, Ameri-
cans were incredulous. But in my
office in San Francisco I have a pho-
tograph of coolies carrying timbers
that squared twenty-four feet and
were eighty feet long. They were
unloaded from one of our ships and
a snapshot was taken on the spot.

"When I was in China about three
years ago I was a guest at a ban-
quet given by Sheng Kung Pao, min-
ister of communication, and was hon-
ored with a seat next to him. In the
course of the banquet he remarked
that I was shipping some enormous
timbers to Kan Chow to be used in
the construction of a Christian col-
lege for the education of Chinese
youth. I was astonished, as I had
not even mentioned that fact to my
own family.

"How did you find that out," I
asked.
"Oh, you can't conceal anything
from us over here," he replied. "You
know of the temple there, do you
not?" he asked, and I replied that I
did.

"Well," he said, "I have decided
to rebuild it, and I want the largest
timbers that can be procured in the
world, and I want you to get them
for me."

"How long do you want them?"
I asked.

"One hundred and fifty feet," he
replied.

"That is impossible," I said. "We
could not find a ship big enough to
carry them, and they would have to
be towed to get them here."

"I want them as big as I can get
them," he said, and those are the
timbers we are now loading.

"The timbers have been loaded on
the main deck, and the bark has
been left on, so that the logs them-
selves will not be chafed. When they
reach China the bark will be
peeled off and they will be smooth
and clean."

"When in China I visited the
Ling Yen temple. The only way to
get there is to ride in a sedan chair
or walk. The narrow road of rock
has been worn by the feet of count-
less thousands of pilgrims to the
temple shrine until it is hollowed out
in the middle. We met and passed
thousands of persons on the way.
Over this road the timbers now at
Linton will be carried by coolies, a
distance of six miles."

Etherizing Strawberry Plants.

An ingenious and important ex-
periment has recently been made at
the Wiley research station of the
Royal Horticultural society, says the
London Mail. It will be followed
with the greatest interest by growers
of strawberries in England. Mr. F. J.
Chittenden, the director of the
laboratories has proved that by ether-
izing strawberry plants the fruit may
be obtained ten days earlier than
those not etherized, the other condi-
tions being the same.

The method of etherizing was sim-
ple. The plants were placed in pots
during July and left out of doors un-
til the end of December. Half were
then placed in an airtight box, in the
bottom of which was a small glass
full of ether. The ether dif-
fused rapidly and appeared to retard
the plants.

The etherized plants were then
placed—alongside the untreated por-
tion—in a green house and immedi-
ately began to make growth, finally
fruiting about ten days before those
not treated.

The importance of this experiment
lies in the fact that early strawber-
ries fetch fancy prices, while those
produced a few days later are often
a drug in the market. The experi-
ment is also of great importance to
gardeners working on the French
system owing to its simplicity.

PLUMBING HURT

PRISONERS PLACE PIECE OF
SHEET IRON IN CAGE

And It Tears Out Piping as It Whirls
Around in the County
Jail.

Several hundred dollars' worth of
damage to the plumbing of the county
jail was done yesterday by the ne-
gro prisoners. A piece of sheet iron
was placed in the revolving cage so
that when it was turned the sewer
connections were ruined in the negro
cells. Since the jail delivery the
prisoners have been kept in their
cells, and the prisoners became angry
and placed the iron in the cage for
revolving.

THE BARBLING BROOK.

Afar upon a mountain-side
I paused to watch a streamlet glide
"Pray little stream," to it I say,
"Why do you murmur thus always?"

"Well, I can't rest," the brooklet said.
"Because there's boulders in my bed.
And when the sun is hot and high
My mouth gets very parched and dry.
And now the huntsman's gun and
lead

Have shot the hares off of my head.
But I'll be damned if people see
The power that there is in me,
And when to steel and wheel I'm
fast

Then I will get my turn at last.
That's what they say about the
worm,
So this is why I always murmur.

called the "Breeches Bible," from
its rendering of Genesis 41: 7:
"Making themselves breeches out of
fig leaves." This translation, done

the English family Bible during the
reign of Elizabeth and was sup-
planted by the version of King

SPITTING NUISANCE

Hawking and Spitting Is Caused by
Catarrh Germs.

If the local authorities want to
stop the disgusting habit of spitting
mucous on the sidewalks, they had
better instruct the people as to the
best method of killing the catarrh
germs and curing catarrh.

You can easily tell by reading the
symptoms below whether you have
catarrh or not.

Offensive breath, frequent sneez-
ing, discharge from nose, stoppage
of the nose, huskiness of the voice,
tickling in throat, droppings in
throat, a cough, pain in chest, loss
of strength, variable appetite,
spasms of coughing, low spirited at-
titudes, raising of mucous, difficulty
in breathing, loss of vital force.

W. J. Gilbert has a sensible rem-
edy (money back if it fails) for
catarrh, called Hyomel, which is a
vaporized air so antiseptic that when
it is breathed over the inflamed and
germ-infested membrane, it kills all
germ life and cures catarrh.

The price, including hard rubber
inhaler, is only \$1.00, and money
back if it doesn't cure. Extra bottles,
50 cents.

CAMP MEETINGS AND WORKERS.

Human Nature in Strangest of Phases
Shown at These Gatherings.

The course of a camp meeting ses-
sion is worthy of study. It usually
opens quietly, with sparse attendance
and no great promise of results. In-
sensibly interest grows. The strag-
gling groups consolidate into a multi-
tude. The excitement increases, until
the heights of enthusiasm are reached.
It is then that the woods
ring with the appeals of the swaying
preacher, whose fervor feeds on the
resistance of stubborn hearts. The
old-time hymns of invitation and
promise swell into a rich fullness,
until at last the cry of "Come, all ye
poor and needy" is answered and the
hallelujahs of the saved mingle with
the repentant sobs from the "mourner's
bench." The good work pro-
gresses, and many are added to the
fold.

This is one of the external views.
Others of quite a contrary nature
have been described. The camp meet-
ing has been held up to admiration
and to ridicule. It has been both
praised and blamed. But in whatever
phase it is regarded, there is some-
thing of laughter and of tears. All
kinds and conditions of men are to
be found there. Huck Finn's un-
savory companion, playing the part
of a converted pirate, passing around
the hat and carrying off a jug of
whisky at the close of the meeting,
has, perhaps, had his counterpart in
real life. There are also the "back-
sliders," who, like the frog in the
well, climb high and fall hard. But
out of them all there are some verita-
ble brands plucked from the burning,
turned forever from the ways of error
to the paths of rectitude. And so,
when the seasons roll round again,
the preacher looks to the net gain of
the last meeting and pronounces it
good, and is ready with a strong
heart to begin the fight again.—

HUNGRY HOBOES

EAT THEIR FILL WHILE GROCER SLEEPS.

James Richardson Discovers Front Window Snatched and Food Consumed.

Hungry hoboies ate while Groceryman James Richardson slept. This morning when Mr. Richardson opened his place of business at the rear of John Ward's liquor house at Second street and Kentucky avenue he found an empty can of tomatoes, two pounds of cheese missing, crackers gone and sardines, too. The cash register was standing open and a few pennies which had been left in it were gone.

The audacity of the theft hurt the proprietor more than the loss of the goods. The "masticators" entered through the front window after smashing in the glass and apparently took their time and ate until their appetite was satisfied. No clew as to their identity was left.

MR. LATHAM'S WILL

PRACTICALLY CUT OFF WIDOW, SAYS HER ATTORNEY.

Claims He Will Have No Difficulty in Proving Philanthropist Was of Unsound Mind.

New York, Sept. 29.—John Thomas Smith, of 32 Nassau street, attorney for Mrs. Elsie Gaylord Latham, formerly a beautiful Kentucky girl, who will renounce the will of her husband, the late John C. Latham, talked about the case today.

Mr. Smith says that under the terms of the will, Mrs. Latham was practically cut off with the \$10,000 cash bequest. While she was named as residuary legatee, the estate, it has developed, is by no means as large as had been estimated at the time of Mr. Latham's death.

In fact, according to the attorney, after the large bequests to the city of Hopkinton, Ky., and to relatives and friends should be paid, there would be very little left for the widow.

Mr. Smith says it will not be at all difficult to prove that Mr. Latham was not in his right mind for months before his death, and that he was not mentally capable of making a will.

As to the charge of undue influence, he says this expression is merely technical.

Rev. J. H. Roulach, Union City, Tenn., Sept. 29.—The Rev. J. H. Roulach of this city died at his home Sunday, and was laid to rest in the City Cemetery yesterday.

The services were conducted by the Rev. J. J. Castleberry of the First Christian church of this city. Mr. Roulach was at one time a very prominent member of the bar of this country, but for many years had been in the ministry of the Christian church.

River and Weather.
The river still remains at a stand of 3.8 feet. Weather clear and warmer and business fair.

Driftwood.
With two barges containing probably the largest amount of mussel shells ever brought here, the Henrietta arrived at 5 p. m. yesterday from the Tennessee river. The towboat Condor came up from Joppa light and took the barges from the Henrietta, departing at 7:30 o'clock this morning for Joppa.

The Clyde will leave tonight at 6 o'clock for Waterloo, Ala., and is receiving freight at the wharfboat. She returned from Joppa yesterday afternoon.

Mr. Saunders, A. Fowler went to Mound City today to look after the Dick Fowler's repairs. If a decision is reached to include her in the presidential fleet down the Mississippi river she will not come back here from Mound City until after the trip.

The Henry Harley had her boiler cleaned out yesterday and left at 3 a. m. today for Cairo. She returns tonight about 10 o'clock leaving at 8 a. m. tomorrow for Cairo.

The Kentucky will come out of the Tennessee from Riverton, Ala., tomorrow afternoon or night, proceeding to Metropolis to unload. She departs at 6 p. m. Saturday for Riverton.

To engage in railroad contract work the towboat E. A. Voight will leave tomorrow morning for Greenville, Miss., with a sand digger, a derrick boat, 3 new sand barges and two deep log barges. She will be in command of Capt. E. A. Voight, her owner.

"The United States Lighthouse tender Lily, which arrived here last Friday, will depart for Cairo this morning. The Lily will work up the river, making a final inspection of all lights and buoys preparatory to the president's trip from here to New Orleans next month. On her return she will be repainted and generally overhauled for the trip. She is one of the trimmest and handsomest government boats on the Mississippi, and it was thought she would be chosen for the use of President Taft. She will probably be used as

a relief boat should anything happen to the Oleander. The Oleander is a larger boat, but is a stern-wheel type, while the Lily is a side-wheeler. The Lily will probably return here by October 15.....Capt. Thomas Parker, Jr., who took the launch Alma to Cairo, returned yesterday.—St. Louis Globe-Democrat.

The New Orleans Picayune of Sunday says: "Capt. W. F. Burress, of the fated towboat Harvester, which was lost during the hurricane at Donaldsonville, called at the office of the United States local inspectors of steam vessels yesterday to make his formal report of the disaster. Capt. Burress states that the Harvester, which was temporarily laid up at Donaldsonville, broke loose from her moorings during the storm and was carried sideways out in the river several hundred feet and turned bottom side up, going down in ninety-eight feet of water. There was no one aboard at the time the wind struck her excepting the captain, engineer and cook, and only having steam in the donkey boiler, no attempt could be made to prevent her destruction. As the boat broke loose from her fastenings the captain and engineer made their way safely to land, but as the cook, a colored woman named Mary Ann, stepped ashore the bank caved and she was precipitated into the river and drowned before help could reach her. The Harvester was owned by the West Kentucky Coal company, valued at \$50,000 and insured for \$25,000. She was built at Madison, Ind., in 1906, measured 185.3 feet in length, with 34.8 feet beam and 5.9 feet depth of hold, and was one of the best equipped towboats on the Ohio and Mississippi rivers."

Neutral Country

STRIP BETWEEN EL PASO AND JAUREZ WILL BE.

When Presidents Taft, of U. S., and Diaz, of Mexico, Have Meetings in the Two Cities.

Washington, Sept. 29.—When the meetings of Taft and Diaz at El Paso and Juarez take place, the intervening territory between the two cities, which is in dispute, will be for this occasion regarded as neutral territory, the flags of neither nation being displayed.

This understanding was reached as the result of considerable correspondence regarding the region known as "Chamizal" which contains 550 acres. The ownership is in question on account of the shifting channel of the Rio Grande river.

On the morning of the 16th Secretary Dickinson accompanied by General Myer and staff, two squadrons of cavalry, three batteries of artillery will proceed to the point where Diaz, accompanied by an escort of 20 men, will enter the United States, and welcome the American president. By agreement the escort is limited to twenty while the executives are crossing "Chamizal."

After a visit with Taft Diaz will return to Mexico, accompanied to the boundary by the same escort.

At noon Taft will go to Juarez and in crossing "el Chamizal" will be accompanied by an escort of twenty men. At the Mexican border the president will be welcomed by the representative of President Diaz, and proceed, surrounded by a Mexican escort, to the building where he will be received by Diaz.

The Evening Sun's Daily Markets.

Tobacco Meeting.

Clarksville, Tenn., Sept. 29.—The Dark Tobacco Growers' association of Montgomery county met here in regular session. District reports showed about all of the 1909 crop housed and as a general thing cured well. The color is said to be better than at first anticipated and the crop above the average in quality. The chairman stated he had recommended the appointment of C. R. McMurray and James Killebrew as salesmen at Clarksville and the action was endorsed unanimously. He stated the graders at each market would grade the samples at the respective places of sale.

New Tobacco Is Sold.

A load of new tobacco arrived in Clarksville Monday evening from Stewart county. It was closely inspected by several buyers and finally sold to B. H. Sory for 8 and 5 cents. The tobacco was not well cured, being of a motly color, and the price is regarded as a good one.

With two barges containing probably the largest amount of mussel shells ever brought here, the Henrietta arrived at 5 p. m. yesterday from the Tennessee river. The towboat Condon came up from Joppa light and took the barges from the Henrietta, departing at 7:30 o'clock this morning for Joppa.

The Clyde will leave tonight at 6 o'clock for Waterloo, Ala., and is receiving freight at the wharfboat. She returned from Joppa yesterday afternoon.

Mr. Saunders A. Fowler went to Mound City today to look after the Dick Fowler's repairs. If a decision is reached to include her in the presidential fleet down the Mississippi river she will not come back here from Mound City until after the trip.

The Henry Harley had her boiler cleaned out yesterday and left at 8 a. m. today for Cairo. She returns tonight about 10 o'clock leaving at 8 a. m. tomorrow for Cairo.

The Kentucky will come out of the Tennessee from Riverton, Ala., tomorrow afternoon or night, proceeding to Metropolis to unload. She departs at 6 p. m. Saturday for Riverton.

To engage in railroad contract work the towboat E. A. Voight will leave tomorrow morning for Greenville, Miss., with a sand digger, a derrick boat, 3 new sand barges and two deep log barges. She will be in command of Capt. E. A. Voight, her owner.

The United States Lighthouse tender Lily, which arrived here last Friday, will depart for Cairo this morning. The Lily will work up the river, making a final inspection of all lights and buoys preparatory to the president's trip from here to New Orleans next month. On her return she will be repainted and generally overhauled for the trip. She is one of the trimmest and handsomest government boats on the Mississippi, and it was thought she would be chosen for the use of President Taft. She will probably be used as

a relief boat should anything happen to the Oleander. The Oleander is a larger boat, but is a stern-wheel type, while the Lily is a side-wheeler. The Lily will probably return here by October 15. Capt. Thomas Parker, Jr., who took the launch Alma to Cairo, returned yesterday.—St. Louis Globe-Democrat.

The New Orleans Picayune of Sunday says: "Capt. W. F. Burress, of the fated towboat Harvester, which was lost during the hurricane at Donaldsonville, called at the office of the United States local inspectors of steam vessels yesterday to make his formal report of the disaster. Capt. Burress states that the Harvester, which was temporarily laid up at Donaldsonville, broke loose from her moorings during the storm and was carried sideways out in the river several hundred feet and turned bottom side up, going down in ninety-eight feet of water. There was no one aboard at the time the wind struck her excepting the captain, engineer and cook, and only having steam in the donkey boiler, no attempt could be made to prevent her destruction. As the boat broke loose from her fastenings the captain and engineer made their way safely to land, but as the cook, a colored woman named Mary Ann, stepped ashore the bank caved and she was precipitated into the river and drowned before help could reach her. The Harvester was owned by the West Kentucky Coal company, valued at \$50,000 and insured for \$25,000. She was built at Madison, Ind., in 1906, measured 185.3 feet in length, with 34.8 feet beam and 5.9 feet depth of hold, and was one of the best equipped towboats on the Ohio and Mississippi rivers."

NEUTRAL COUNTRY

STRIP BETWEEN EL PASO AND JAUZEEZ WILL BE.

When Presidents Taft, of U. S., and Diaz, of Mexico, Have Meetings in the Two Cities.

Washington, Sept. 29.—When the meetings of Taft and Diaz at El Paso and Juarez take place, the intervening territory between the two cities, which is in dispute, will be for this occasion regarded as neutral territory, the flags of neither nation being displayed.

This understanding was reached as the result of considerable correspondence regarding the region known as "Chamizal" which contains 550 acres. The ownership is in question on account of the shifting channel of the Rio Grande river.

On the morning of the 16th Secretary Dickinson accompanied by General Myer and staff, two squadrons of cavalry, three batteries of artillery will proceed to the point where Diaz, accompanied by an escort of 20 men, will enter the United States, and welcome the American president. By agreement the escort is limited to twenty while the executives are crossing "Chamizal."

After a visit with Taft Diaz will return to Mexico, accompanied by the representative of President Diaz, and proceed, surrounded by a Mexican escort, to the building where he will be received by Diaz.

HUNGRY HOBOES

EAT THEIR FILL WHILE GROCER SLEEPS.

James Richardson Discovers Front Window Smashed and Food Consumed.

Hungry hoboes ate while Groceryman James Richardson slept.

This morning when Mr. Richardson opened his place of business at the rear of John Ward's liquor house at Second street and Kentucky avenue he found an empty can of tomatoes, two pounds of cheese missing, crackers gone and sardines, too. The cash register was standing open and a few pennies which had been left in it were gone.

The audacity of the theft hurt the proprietor more than the loss of the goods. The "masticators" entered through the front window after smashing in the glass and apparently took their time and ate until their appetite was satisfied. No clem was to their identity was left.
